The V-MPL is the repair lock with the largest range of backsets on the market and has the greatest flexibility when replacing existing multipoint locks. It features over 500mm of serrations covering almost every hook multipoint on the market and can accept shootbolts.

Supplied in 3 parts with serrated shoe connectors and UPVC keeps. Adjustable packers mean that keeps will fit any profile. 35mm and 45mm backset locks feature a split spindle.

3 piece lock. 3 part keep system. Frame fixing tabs. Adjustable packers to suit any profile
